

Product Data Sheet: C1077

54# Semigloss TE | timberTack | 40#

Rev. No. 04.01.01 | Date 26DEC24

The 54# Semigloss TE is a premium coated semigloss porous paper material that allows excellent ink absorption. When removed, the material delaminates to indicate tampering.

- Designed for high end labels
- sharper resolution allows photos to pop
- greater contrast between light and dark shades
- high strength for fast matrix stripping

an aggressive rubber adhesive for wood & horticulture

TimberTack's secret weapon is its surprisingly soft formula. This clever extra aggressive adhesive seeps into every pore and crevice, forming an unbreakable bond with even the roughest, most textured materials. Unlike stiff adhesives that bridge over uneven surfaces, timberTack's soft formula allows it to fill the gaps to create a larger bonding surface for ultimate strength. Nature Lover's Rejoice, timberTack's solvent-free formula is an eco-friendly choice for a wide range of horticultural applications.

- extra aggressive
- moderately soft adhesive
- high surface contact
- excellent initial tack
- high flow properties
- great cold resistance
- moderate heat resistance
